

Please note - Aged Care Funding is dependent upon General Practitioners evidence. Access to Allied health services and the Dental Health Scheme needs GP support; this support is evidenced by the ITEM numbers used. GP Documentation must be comprehensive and specific.

Health Assessments GROUP 14					
Item	Amount Paid	Time Required	Number per year	Benefit Description	Terms and Conditions
701	\$59.35	Brief 30 min.	1 per 12 month period, or at a major change in health	Comprehensive Medical Assessments	<p>See A.14. Supplementary Information	
ACAI- PIP	<p>Aged Care Access Initiative Practice Incentive Payment</p> <p>The PIP General Practitioner Aged Care Access Incentive (ACAI) aims to encourage GPs to provide increased and continuing services in RACFs.</p> <p>The PIP GP ACAI payments are based on a GP providing a required number of eligible Medicare Benefits Schedule (MBS) services in RACFs in a financial year.</p> <p>https://www.humanservices.gov.au/sites/default/files/documents/gp-aged-care-pip-guidelines.docx</p>
ACFI	<p>Aged Care Funding Instrument (ACFI)</p> <p>The ACFI is based primarily on the resident's dependency (need for care) rather than on care planning or care provided by an aged care home.</p> <p>The ACFI consists of twelve care need questions. Diagnostic information about mental and behavioural disorders and other medical conditions is required. This information is used to categorise residents as having low, medium or high care needs in each of the following care domains: Activities of daily living (ADLs), Behaviour and Complex Health Care.</p> <p>NB: Use of the CMA – best presents the evidence required.</p> <p>https://www.humanservices.gov.au/health-professionals/services/aged-care-funding-instrument</p>
